

## WINNER

Tyrolit CNC Resin Polishing Wheels

# WINNER

Tyrolit CNC 3 step resin polishing system, suitable for polishing granite, marble and engineered stone.

**Application:** CNC resin polishing wheels for granite, marble and engineered stone.

**+ Class Leading Polish:**

The specially developed resin gives winner wheels the elasticity needed to guarantee a perfect fit between material and wheel.

**+ Long life:**

The thick, uniform, smooth resin layer guarantees consistent polish from first piece to last. There is no need for Winner wheels to be broken in, the polish is perfect from the first piece onwards.

**+ No burn, No breaking:**

Top quality materials and proven manufacturing process give winner wheels outstanding resistance and minimize the risk of breaking or burning.

**+ Quick setup:**

Perfect dimensional match between metals and polishers. Each wheel provided with the inside diameter on the label.

**TYROLIT offers a wide range of WINNER profiles and diameters:**
